Highlights

- 2 years of experience in software development
- Strong in Golang for backend development
- Proficient in React for frontend development
- Strong skills in Docker and container orchestration
- Familiarity with CI/CD pipelines using Gitlab

Work Experience

Software Engineer **February 2022 - March 2023**
IVS Joint Stock Company, Nha Trang City, Vietnam

- Developed and maintained backend services using Golang
- Implemented source control using Github to manage the codebase
- Working with React for around 5 months

Software Engineer **March 2023 - September 2023**
TMA Solutions

- Working with React, NextJS, NestJS to build web3 marketplace with Mumbai, goerli network
- Using Docker, Docker compose within project
- Implemented source control using Gitlab to manage the codebase

Software Engineer **September 2023 - December 2023**

- Build CI/CD with Gitlab, Docker, and DockerHub for the team.
- Developed core functions for an educational platform(Kahoot alternative) using Golang websockets and Gin framework.
- Developed with NextJS for frontend and Minio for storage service
- Implemented source control using Gitlab to manage the codebase

Software Engineer

December 2023 - March 2024

- Build CI/CD with Gitlab, Docker, and DockerHub for the team.
- Working with foundry and uniswap to build a decentralized exchange platform
- Building frontend using nextjs for add liquidity function
- Working with subsquid to received, handle data from chain
- Implemented source control using Gitlab to manage the codebase

Software Engineer

March 2023 - April 2024

- Build a small AI application using Ollama
- Utilized Golang and open-source AI library Ollama to develop an automated email response system, improving customer support efficiency.

Software Engineer

April 2024 - Now

- Building services around core blockchain using Golang and Solidity, Foundry
- Building Notification service(Golang, Solidity), Game (Golang websocket, Solidity), Storage service (Golang, Minio), Ecommerce(Golang, Solidity).

Education

Bachelor of Information and Technology

2018 - 2022

University of Nha Trang, Nha Trang, Vietnam

Skills

- `</>` Go
- `</>` React
- `</>` Solidity
- `</>` Typescript
-  Github
- `</>` Python
